

# SAMBHRAM SCHOOL OF MANAGEMENT

## REPORT ON THE CULTURAL EVENT

### “CONVERGENCE”

MAY 06-07, 2016.

Sambhram School of Management organized the two-day Intra-Institutional Cultural Extravaganza **CONVERGENCE 2016** in the campus on May 6-7, 2016. These two days were loaded with various programs which not only showcased the intellectual capability of the students but also their innate talents in dancing, music, drama etc.

Events that were organized on these two days included **Street Play (Nukkad Natak)** where students exhibited their acting skills on themes given by the judges to them; **Mad Ads** where students presented bizarre ads and **Bluff Master** where the students were made to narrate incidents which would not be genuine but will have an element of humour in it. The other events organized on the Day 1 were **Wordsworth** and **Pick and Speak**; in case of the former students were given one word out of which they were asked to make 50 new words and in the latter the students were asked to speak on topics given to them by the judges.

Day 2 had events which showcased the **Dancing** and **Singing** talents of the students; they danced to the rhythm of the music and they rocked the stage with their performances. Students also enraptured the audience with their songs in their mellifluous voices.

Such cultural programs bring out the hidden talents in the students and also give them an opportunity to hone their skills. This break from their busy study schedule gave them breathing time for a while again to gear up themselves for the ensuing examination in June, 2016. The Two- Day event concluded with a valedictory function where the winners were felicitated by the Chief Guest.
